

## SUMMARY

---

I am an Architectural Designer with four years of professional experience, currently on track to licensure. I am fascinated by our interaction and phenomenological perception of the built environment. In addition to this, I am intrigued by how digital technology, such as artificial intelligence, and the advancement of technology affect these experiences.

## ARCHITECTURAL EXPERIENCE

---

### Construction & Assembly Team Member

Jacob Comerçi | Sidewalk Detroit

June 2019 – August 2019

Ann Arbor, MI

Helped to construct, assemble, transport and set-up a series of tables and benches which provided space for visitors to sit, eat, and socialize during the Sidewalk Detroit Festival.

### Spring Break Intern

OZ Architecture

March 2019

Denver, CO

Spent a week working on a senior housing project at the OZ offices, as part of the University of Michigan's "externship" program. Used Revit to perform code analysis, picked up redlines and reviewed specification documents.

### Project Designer

Gronning Architects

August 2017 – September 2018

Washington, DC

Worked on various projects at all phases, lead design and project management of half a million+ tenant fit-out project. Designed and oversaw an 11 unit multi-family residential renovation project. Provided design concepts, SD/DD/CD/CA, site analysis, research & development, performed code review, bid review, provided FF&E and material specifications for various projects. Performed walk-throughs and wrote punch lists. Coordinated with contractors, clients, MEP, code officials and consultants. Scheduled lunch & learns, built relationships with product representatives and maintained material library. Worked in fabrication shop to assist in furniture creation for projects, provided renderings, and photographed completed projects.

Scope of projects included: Hospitality, Commercial, Multi-Family Housing, and Residential.

### Architectural Designer

Newman Architects, PC

January 2016 – April 2017

Washington, DC

Worked on projects at multiple phases, provided schematic design/ design development/construction documents, produced feasibility studies for multi-million dollar projects, created 3D models, renderings, and performed various tasks. Used BIM modeling to coordinate drawings with consultants and JV firms, presented designs at client and community meetings, and worked on a LEED gold project for DC Public Schools.

Scope of projects included: Education, Institutional, and High-end Residential

### Architectural Designer

James Cummings, AIA

October 2014 – December 2015

Washington, DC

Provided construction documents, research and analysis, designs, renderings, social media promotion, and physical models. Documented measurements, and verified field work for Vietnam Veterans Memorial. Part of design team for In Memory Memorial located on the National Mall and the Gold Star Mothers Memorial proposal at Arlington National Cemetery.

Scope of projects included: Civic, Historic Preservation, and Residential

## EDUCATION

---

UNIVERSITY OF MICHIGAN

ANN ARBOR, MI

MASTER OF ARCHITECTURE

2018 - 2020

### ACADEMIC HONORS

2018 - 2020

Linn C. Smith Architecture Alumni Scholarship Recipient

2019 - 2020

A. Alfred Taubman Fund Recipient

UNIVERSITY OF MARYLAND

COLLEGE PARK, MD

BACHELOR OF SCIENCE IN ARCHITECTURE

2010 - 2014

### ACADEMIC HONORS

2013

"Collaborative Convergence" project featured in AIA Maryland exhibition

2014

"Lifted Landscape" project developed as part of the city of Salisbury's master plan.

## SKILLS

---

### PROGRAMS

Adobe [ After Effects | Illustrator | InDesign | Lightroom | Photoshop | Premiere Pro ]  
ANSYS | Arnold | Autodesk [ 3D Studio Max  
AutoCAD | Maya | Mudbox | Revit ] | Bluebeam  
Dynamo | Grasshopper | Lumion | Microsoft  
Office | Newforma | Python | Rhino | Rhinoscript  
SketchUp Pro Suite | Vectorworks | V-Ray | ZBrush

### FUNDAMENTALS

Artificial Intelligence | Building Information  
Modeling (BIM) | Client Relations | Community  
Presentation | Cross-Platform Workflow | Digital  
Fabrication | Model Making | Photography  
| Post-Processing | Project Management |  
Technical Drawing | Rendering | Virtual Reality
